

550 SERIES

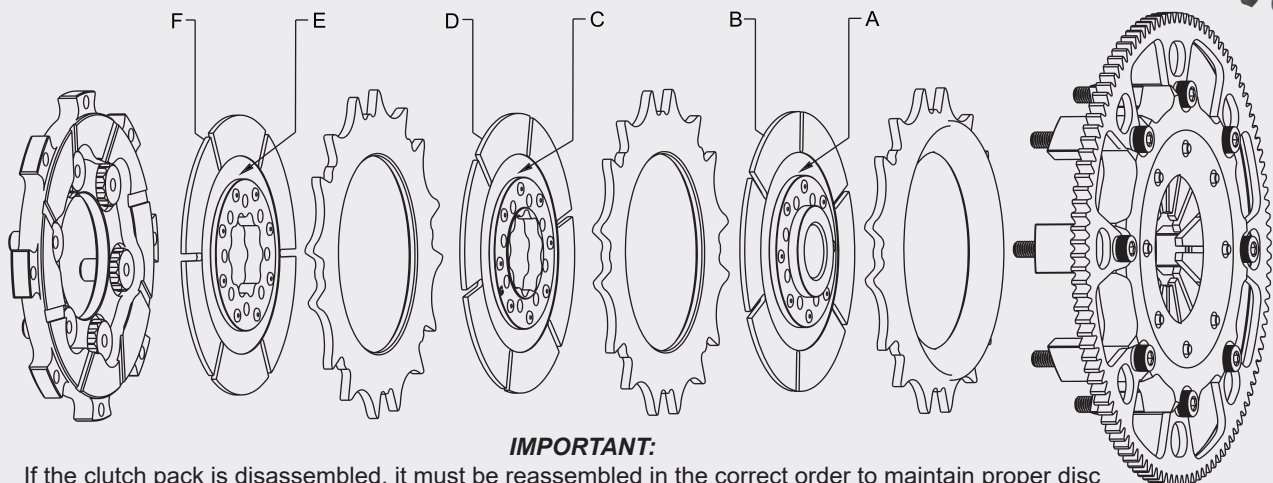

CIRCLE TRACK CLUTCH

Clutch Masters Circle Track Clutch and Flywheel Systems

Clutch Masters Circle Track clutch and flywheel components are proudly engineered and manufactured in the USA, adhering to the highest standards of quality and performance. Backed by years of research and development, our team possesses the knowledge and hands-on experience needed to select only the finest materials and most effective manufacturing processes—ensuring our products exceed expectations and deliver on the racetrack.

Our SFI-certified flywheels meet rigorous performance standards for both automotive and motorsport applications. Each clutch kit comes pre-assembled from the factory in a 5.5" triple-disc configuration, utilizing premium ceramic friction discs, 4140 chromoly steel floater plates, and 6160 aircraft-grade billet aluminum clutch covers.

Every component is CNC-machined and Type III hard-anodized in-house, giving us complete control over quality and consistency. These meticulous production methods—combined with our unwavering commitment to excellence—translate directly into race-day competitiveness you can count on.
